Open discussion questions for consideration. We welcome and appreciate your feedback! What would you like to see the Chapter do or do differently? What can the Chapter do to support you and/or your goals? What would compel you to connect with other Chapter Members?

- I think the pre-COVID direction was good. Build on meetings and events. Keep the virtual offerings if possible.
- Shared goals and aspiration
- I know the reasoning behind stopping the lunches (funding, primarily), but the meetings are still at lunchtime, which causes a bit of a scheduling challenge. It seemed that there was a drop in participation directly following that decision, even before COVID kicked in. Let's either shift to another time, or we may need to consider bringing back the meal.
- More collaboration based on common interests, common values, different perspectives, capabilities and networks.
- Under the circumstances, you are doing great adapting with virtual events. I like the new website. I would like to have a way for more alerts for upcoming events. The two main ways I receive reminders for non-work related events is Facebook and texts.

- I appreciate the adaptability during COVID to move to a virtual delivery environment. Maybe when we are back in person we could have an event without a presenter where everyone comes prepared to share an area of expertise or a recent success. In smaller table groups we could have some structured sharing and discussion.
- I am not sure, I didn't have much opportunity to truly engage this year.
- You are doing a great job. This year has been different, as we all know, but you have been wonderful to keep us engaged.
- Maybe a private Facebook group where we can interact with other members on a personal and professional level, getting to know each other and networking. Also to announce if there are opportunities for work, volunteering, etc.
